DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:
2. The written description should be carefully reviewed for spelling, missing letters, words, etc.. For example : page 1; line 8 – “an” should be replaced with – the--, page 1; line 16 – “ice” should be deleted, page 2; line 10 – “sate” should be replaced with –state--.
3. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,667,260 to Weyerstall.
6. Weyerstall '260 teaches Applicant's claim limitations including : a “latch” – as described in Abstract for example, an “actuator” – 2, an “operating portion” – 5, an “operated portion” – 6, a “drive mechanism” – the elements that are functionally between motor 2 and the latch, a “guide wall face” – the control edge as described at col 4; beginning par. 4, “biasing member” – col 4; line 14-16.

Allowable Subject Matter

7. Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach all elements arranged as set forth but particularly including the combination of operated portion biased towards and movable away from the guide wall and structural arrangement of swing members (which includes the operated portion as described in the claim).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
9. U.S. Pat. No. 5,180,198 to Nakamura.
10. U.S. Pat. No. 6,176,528 to Taga.
11. U.S. Pat. No. 6,648,380 to Szablewski.
